Urinal Partition

MEGHA SYSTEMS specially designed urinal partitions will give a new meaning to your restroom space with vibrant colours coupled with rust resistance stainless steel fittings. The screen partitions are made of 12mm thick compact laminate in one piece with chamfered edges with no joints in between which provides a cleaner look to your rest room. Screens are available in exciting colours and shapes.

Standard Dimensions:

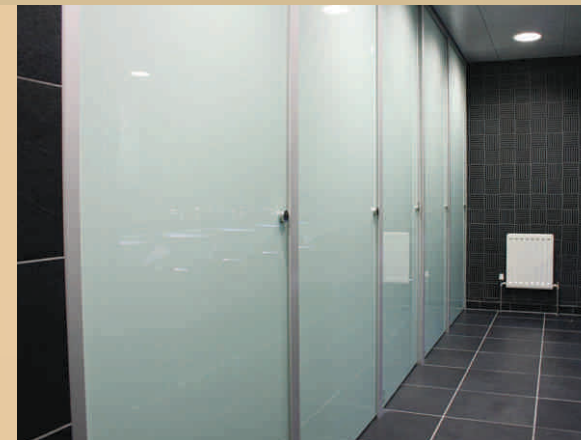

Height: 900-1200mm

Depth: 400-550mm

Gape from Floor: 500-600mm

Glass Doors & Partitions

Keeping in-sync with its tradition of continuous innovation, MEGHA SYSTEMS brings to you 'Glass Model', which uses glass shutters instead of the compact doors. One of the advantages of this model is that the customer can enjoy an elite and elegant look. The use of compact panels in intermediate partition and pilasters ensure better resistance to wear and tear while providing an exciting range of panel colours to mix and match with the glass door.

Specification: All intermediate panels, pilasters shall be 12 mm thick solid compact laminate with edge chamfered and doors shall be 11.14 mm thick laminated glass. The solid compact laminate (Phenolic Core Board) shall be impregnated with phenolic resin based on thermosetting resins, homogeneously reinforced with cellulose fibers and laminates on both sides with matt/textured finish melamine. Performance of the panel shall possess the characteristic of colour, scratch & impact resistance. The sheets shall be bonded at high pressure greater than 110kg/sqcm at temperature of about 150°F. The glass used has the following specifications: The laminated glass shall comprise of 5mm clear tampered glass+0.76 mm clear PVB+0.38 mm translucent PVB+5mm clear tampered glass c/w 4 sides flat polish.

HPL Board Laminate

Megha Systems Phenolic Compact Laminate is a solid, high pressure and extremely durable decorative panels, made from layers of high quality craft papers impregnated with phenolic resin, having decorative papers on both side treated with melamine resin with clear overlay on both decorative surface, this is manufactured under high pressure and temperature. Its water resistant, anti-fungal, anti-bacterial. Suitable for vertical and horizontal application. Available in various thickness and sizes.

Features of MEGHA SYSTEMS Compact Laminates

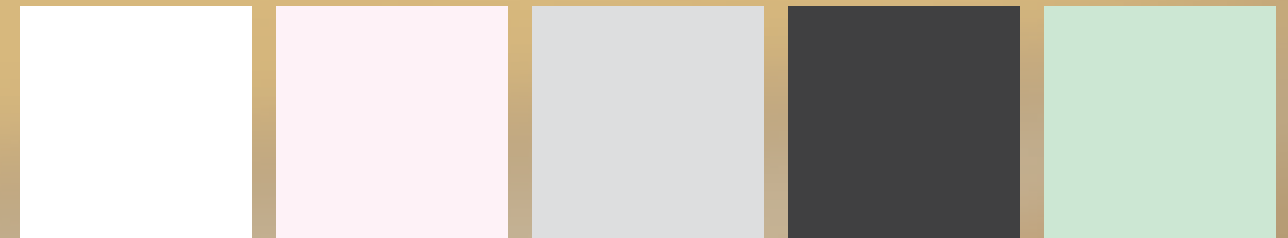

- Strong resistance to impact
- Long term stability
- Non toxic & totally hygienic
