ABOUT US

Megha Systems was established in 2012, with its head office in **Faridabad**, and has grown into a trusted name in **toilet cubicle** and **washroom partition solutions**.

Guided by **Mr. Rakesh Talwar** with **25+ years** of industry experience

Strong foundation built on quality, integrity, and customer satisfaction

Leadership driven by technical expertise and steady growth

Branch offices in Noida and Hyderabad

Serving clients across multiple regions in India

Specialized in design, manufacturing, and installation

Provider of customized toilet cubicle solutions

Focus on durable, hygienic, and aesthetic washroom designs

Use of premium quality materials for long-lasting performance

From concept to completion, we focus on precision, timely execution, and dependable after-sales support.

OUR MISSION

- To deliver high-quality, durable, and hygienic washroom solutions that meet international standards
- To provide customized designs that align with client requirements and architectural aesthetics
- To ensure timely project execution with professional installation and service
- To continuously improve through innovation, skilled workmanship, and customer-focused practices
- To build long-term partnerships based on trust, transparency, and reliability

OUR VISION

- To become a leading and most trusted brand in washroom and toilet cubicle solutions
- Recognized for innovation and quality craftsmanship
- Committed to long-lasting customer relationships
- Expanding presence across India

WHY CHOOSE US

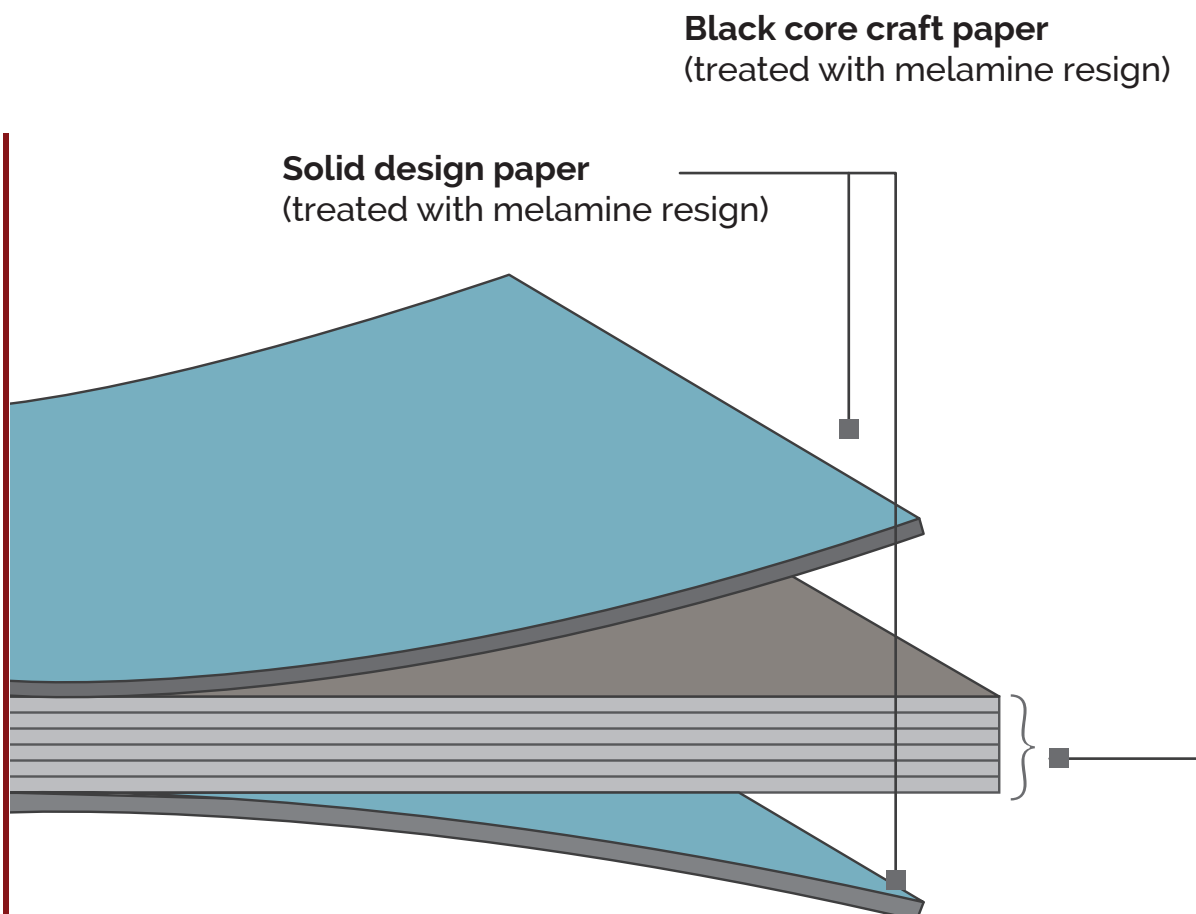

- ◆ More than 13 years of expertise in restroom cubicles
- ◆ One-stop solution from design to installation
- ◆ Innovative products with modern aesthetics
- ◆ Top-grade materials and advanced processing
- ◆ Wide product range for varied requirements
- ◆ Professional on-site installation
- ◆ Prompt and on-schedule delivery
- ◆ Smart, affordable solutions
- ◆ Quick quotation and responsive support
- ◆ Nationwide presence with 5,000+ projects &
- ◆ 50,000+ successful installations

Material Features

& Technical Specification

- ◆ Superior-quality material suitable for a wide range of applications
 - ◆ Constructed with multiple layers of cellulose reinforced with thermosetting resins
 - ◆ Manufactured under extreme pressure for enhanced strength and durability
 - ◆ Incredibly strong, reliable, and waterproof material
 - ◆ High density of 1350 kg/m³, ensuring long-lasting performance
 - ◆ Available in eye-catching colours and designs on both sides
 - ◆ Extra-tough surface using melamine-based resins
-
- ◆ Core layers bonded with high-performance phenolic-based resins
 - ◆ Produced using a precise high-pressure process
 - ◆ Heat of 120°C and pressure of 5 MPa applied simultaneously
 - ◆ Ensures a consistent, non-porous structure
 - ◆ Provides a smooth and refined surface finish
 - ◆ Manufactured as per EN 438-152048 standards
 - ◆ Guarantees top-class quality, strength, and dependability

15	Flexural strength	Stress MPa (min)	80	90

Construction Overview

Doors:

The Megha System Compact Panel Door with chamfered edges offers a powerful amalgamation of strength and ease for an effortless installation. Equipped with 3 or more gravity hinges or spring-loaded butt hinges made of either stainless steel or nylon, plus a convenient coat hook, and a doorknob. These doors are perfectly designed to simplify your life. These doors also feature a thumb turn lock and door knob for privacy and safety.

Pilasters:

Our resilient and dependable pilasters are crafted from tough 12 mm or 18 mm HPL compact panels. These robust pilasters provide unbeatable support for your restroom doors and dividers. You can mount them on the top rail, rest them on the floor using legs or elegantly box them up, whichever option you choose will appear stunning.

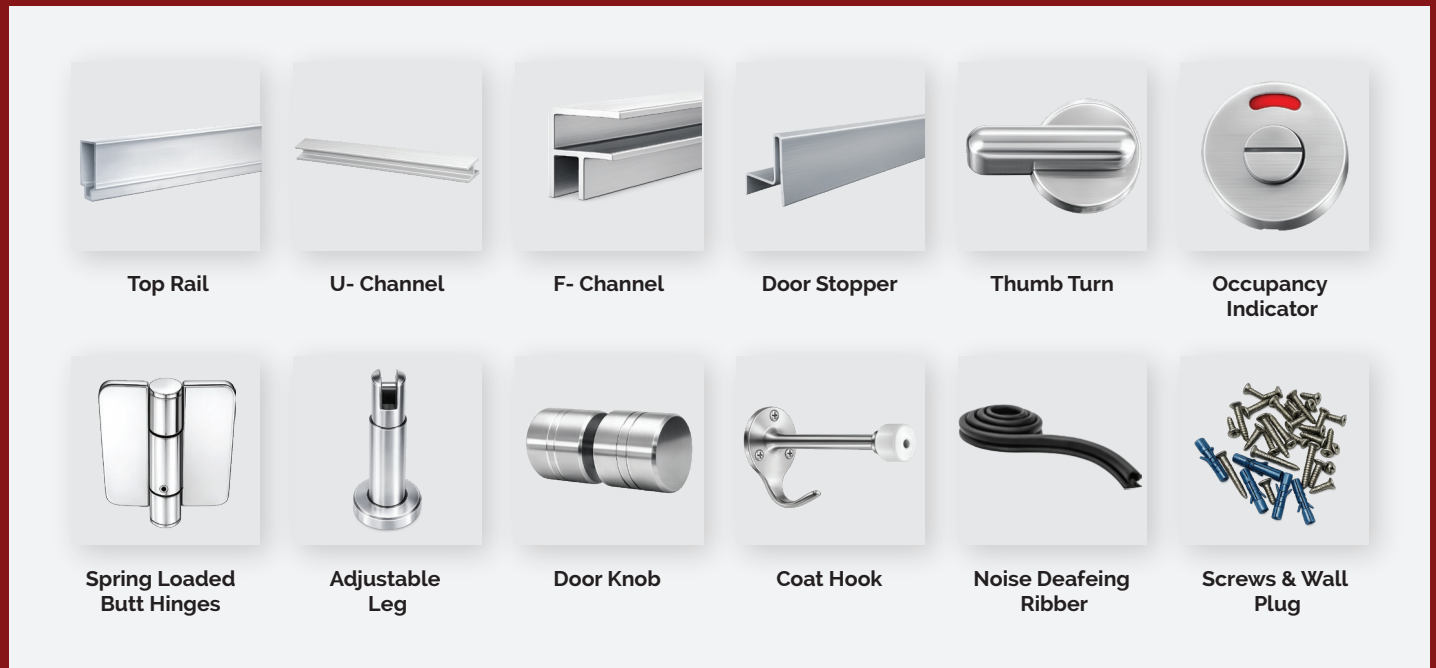

Intermediate Partition

Dividers:

Our top-notch dividers are created from the strongest 12 mm or 18 mm HPL compact panels. These dividers are unbreakable, offering long-term reliability and strength.

Necessary Hardware

Hardware and Accessories

Legs: The new legs of the cubicles are a fantastic way to ensure stability in floor-mounted models. With adjustable heights ranging from 55–150mm, they offer complete customization to fit your needs perfectly.

Hinges: The premium spring-loaded butt and gravity hinges offer an effortless motion to open or close doors, making them the ideal solution for any cubicle.

Box-up Fixtures: Box-up fixtures are defined by their width and are known as "pilasters." Unlike legs, the height of box-up fixtures cannot be altered.

Top Rail: The top rail holds the pilasters in any restroom cubicle cluster.

U Channel: Vertically attaching an HPL compact panel to a wall or another compact panel is easy using the U-Channel system.

Door Stopper Channel: The door stopper channel / H channel is attached vertically to the mid panel, and it acts as a door stopper.

F Channel: F-Channel joins a pilaster to pilaster at the end of any cluster with the divider.

Accessories

Coat Hook: An inventive, cubicle-mounted clothing hanger is mounted on the cubicle door to store items like jackets and portable bags conveniently.

Occupancy Indicator: An occupancy indicator serves as a signal to show whether a designated space is currently occupied.

Doorknob: A doorknob serves as an easy-to-hold handle to open the door from inside or outside.

Compact Laminates with ANTI-BACTERIAL & ANTI-FUNGIE properties

- Retards 99.9% of fungal and bacterial growth on contact with the laminate.
- Meets the standards of ASTM G21-09 and ISO 22196-2007, which is based on JIS Z 2801.
- Backed by Green Guard Certification, and now with Anti-Bacterial & Anti-Fungal protection, it will improve indoor air quality by leaps and bounds.

NEO

Introducing the NEO Series – modular cubicles designed for modern spaces. They combine strong construction with a clean and stylish look. Made from high-quality materials, NEO ensures long-lasting durability and stability. It features adjustable nylon legs anchored to the floor, a powder-coated aluminium top rail for proper alignment, and sturdy aluminium supports for secure panel fixing. Each door comes with three hinges and maintains a 150 mm floor clearance for better functionality. The NEO Series is ideal for shopping malls, hotels, hospitals, stadiums, clubhouses, and educational institutions, offering a strong, stable, and easy-to-install solution.

Dimension

Height of the door	1815	1815

Special Features

- Stainless steel hardware with elegant Black PVD coating for a rich matte look, enhanced durability, and superior corrosion resistance.
- Also offered in exclusive Gold and Rose Gold PVD finishes to complement high-end interior designs.
- Hinges, coat hooks, locks with occupancy indicators, and screw inserts crafted from high-grade stainless steel with PVD coating for long-lasting performance.
- Premium PVD Stainless Steel Fittings
- Designed for High-Traffic Commercial Spaces

MAXI PRO

The Maxi PRO series cubicle is designed to provide privacy, comfort, and durability in any restroom. It features an adjustable aluminium shoe box securely fixed to the floor with nylon plugs and stainless-steel screws for strong stability. The anodized aluminium top rail keeps all panels properly aligned, giving a clean and uniform look, while aluminium U-channels firmly connect the panels to create a solid structure.

Each door is fitted with three hinges and maintains a 100 mm floor clearance. It includes a coat hook, door knob, privacy thumb-turn, and door stopper for convenience. The door can be installed to open from the left or right, offering flexibility for different space requirements. The Maxi PRO series is a strong, reliable, and practical solution for modern restrooms.

Transforming Vinyl Toilet Cubicles for a Premium Look

Upgrade your restroom spaces with high-quality laminated vinyl toilet cubicles designed to deliver both durability and elegance. Premium lamination enhances the overall appearance of toilet partitions while providing superior resistance against moisture, scratches, stains, and daily wear and tear.

We offer customized designs, colors, textures, and branding options to match your interior theme. Whether you prefer wood finishes, marble textures, solid premium shades, or custom graphics, we can transform your existing vinyl cubicles into a sophisticated and visually appealing restroom solution.

If any company, mall owner, corporate office, or institution wants their brand identity incorporated into cubicle designs, we provide customized branding solutions directly on partitions. From logos to thematic graphics, we ensure high-quality printing and professional finishing.

Contact us today to upgrade your vinyl toilet cubicles with a premium, durable, and brand-enhancing solution.

URINAL MODESTY PANELS

We offer stylish and durable urinal modesty panels (UMP) in a variety of colours and finishes. Made from high-quality compact-grade laminates with a strong phenolic core, these panels are built to last and are ideal for high-traffic areas. With a minimum thickness of 12 mm, they provide excellent privacy and strength.

The panels come in standard sizes of 450×900 mm, 450×1200 mm, and 550×1200 mm. They can also include anti-scratch and anti-fungal coatings for better hygiene and easy maintenance. Designed to maintain cleanliness and a modern look, our urinal modesty panels are a reliable and long-lasting solution for public restrooms.

Types of urinal modesty panels

To maintain a sleek and modern look, we offer modesty panels in 5 different shapes (A, B, C, D, and E types) to accommodate all urinal configurations. Our panels are a practical addition to any restroom because they are made from durable materials and are easy to clean and maintain.

Hardware

SS 304 or nylon PA-6 made brackets are used for fixing the UMP panels to the wall.
